

Ontario Hunting Tourism Statistics 2014

Tourism Research Unit
Winter 2017

This report summarizes key characteristics of visitors and visitor spending of trips in Ontario which included the activity of Hunting.

Data was sourced from Statistics Canada's Travel Survey of the Residents of Canada and International Travel Survey, 2014

Some slides include an index table which simplifies the comparison of Hunting and total trip statistics. Since total trips equals 100, an index of 105 indicates Hunting is 5% higher than total, similarly an index of 90 signifies Hunting is 10% lower than total.
