

PARTNERSHIP FUNDING UPDATES

Thanks to those who attended last week's information sessions in Barrie, Collingwood, Owen Sound, Tobermory and Southampton. Answers to questions asked at these sessions have been added to the Frequently Asked Questions section of the [Partnership Funding resource page](#).

As a reminder, the resource is where you can access all information about the program, including downloadable guidelines and application forms. Please check the resource page regularly for new FAQs and other updates.

Please also note that a sample agreement (contract) has now been posted to the resource page.

Cooperative Advertising Opportunity

The cooperative advertising category offers BruceGreySimcoe partners the opportunity to participate in a co-branded, major market campaign leveraged and managed by RTO7 as part of our marketing efforts.

As mentioned at last week's information sessions, an additional information session for organizations interested in this opportunity will be held in Barrie on March 27th.

You can register [here](#) for this special information session.

Deadline Reminder

The deadline for applications for this initial intake is April 5, 2013.

As we expect there will be sufficient applications in this first intake to use 100% of available funding, organizations are urged not to anticipate an additional intake and to submit their applications at this time.
